Work Placement

This qualification has a mandatory 120 hours of work placement. Depending on your placement you may be required to start as early as 6.00am.

4Life will arrange and coordinate your work placement. However many students find work placement themselves near where they live. 4Life will support students who nominate this as their preference.

Workplace assessment involves evaluation of the student, over a range of practical skills, under actual workplace conditions and over several occasions. Learners will be well prepared for their placement, as they will have practiced these skills under the supervision of their 4Life Trainer in the 4Life simulation lab before commencing their work placement.

Learners currently employed in an appropriate disability organisation may complete their assessment requirements within their own workplace and do not need to find a host employer.

Workplace assessments consist of three individual parts:

a) Logbook, which requires the learner to document the hours worked, including a range of practical tasks observed by their work buddy or supervisor.

b) Observation by their trainer while the learner carries out a variety of tasks while working with their clients and/or other team members.

c) Related written assessment tasks that vary from reflection to writing case notes and, understanding the organisation’s policies, procedures and operations.

Please note work placement is not paid work.

Insurance

4Life College provides insurance cover for the compulsory work placement and will provide your host employer with an insurance certificate.
